## Chapter 1 by PsychoPanda

It all started when I pushed someone off a cliff. No one saw me but the trees and the wind carried the whispers back to the village. They did the natural thing. They hung me. It was absolute and suffering. I have haunted the world since 1812. In 2006 I found a young girl to haunt named Ivy. Ivy was a cheerful young girl who didn't look like me at all but was exceptionally pretty. When she got older I started following her and I think she realized. She got a little more jumpy after that because I think she knew I wanted to inhabit her body and she would become The Ghost.
